Colonel A. L. Conger, Akron, O.—My Dear Sir:
Tour favor received. I cannot take part in the
Chic campaign this year for many reasons which
I need not give, but I hope no effort will be spared
to elect McKinley. His victory at this time is
very important to the country and party. He and
Campbell represent honest differences between the two parties at this time. There is no odeling and no evasion, and the voter need not be deceived. The election of McKinley means the policy of protection and honest money. The dection of Campbell means free trade and corruption of the currency. I believe Ohio will stand by McKinley. Very sincerely yours,

REV. DR. TUPPER AND HIS WIFE TEN NECKS TO BREAK Go Out, Arm in Arm, Shopping in the City

The face of Dr. Tupper was beaming with brightness as he emerged from St. Paul's rectory about 10 o'clock this morning, arm in arm with his wife. They were greeted with pleasant smiles and congratulations on all sides. Everybody felt glad that an amicable settlement had been arrived at.

News of the reconciliation of Dr. and Mrs. Tupper, as published exclusively in THE CONSTITUTION this morning, caused a general rejoicing among the many friends of the rector, and a score of congratulating telegrams have arrived from that point during the day.

Monday next Dr. Tupper and family will leave for Atlanta, and take with them the best wishes of many true friends, and will be received in Atlanta with the hospitality of the sunny south. It is hoped that the clouds that have hovered over the now happy family have been dispelled for all time to come.

The Parties of the Second Part. Mr. and Mrs. George Vanderwerker, whose names have been mentioned in connection with the Tupper affair, returned to Leavenworth this morning from a visit to Saratoga and the Adirondacks.

A reporter meeting Mr. Vanderwerker asked him what he thought of the stories which had been afloat regarding Dr. Tupper and Mrs. Vanderwerker.

"It is all an outrageous lie," said Mr. Vanwerker. "It was gotten up as a blackmailing scheme on the part of the servant Rogers starting the story. He spent the most of the year in Denver, and came back to Leavenworth, but I learn he has left the city again. It was an outrageous piece of business."
"Did you ever have cause for suspicion?"

"Not the least trace in the world, and my regard for Dr. Tupper is as great as it has "Had there been anything wrong you would

have doubtless noticed it."
"Assuredly, but there was nothing wrong, or a shadow of anything that would cause a

suspicion of it."
"Have any papers in the alleged suit been served on you?"

"None. I would have only been too glad to have had the case go into the courts. I know well what the verdict would have been, and it would have been to my satisfaction."
"Will you remain in the city?"

"We will remain in the city about a month then we will go east to reside permanently.' "Have Dr. and Mrs. Tupper become recor

A BLOODY TERM OF COURT AT LAURENS

Judge Hudson Passes the Sentence of Death on Ten Negroes.

WHO WERE CONVICTED OF MURDER

Making Eleven Hangings for a Single Term of the Court-The Story of the Crime Committed.

COLUMBIA, S. C., September 25.—[Special.] Wednesday and Thursday, in the Lauren court of sessions, were consumed in the trial of Jim Young, Allen Young, Monroe Young, Henderson Young, John Adams, Perry Adams, Lige Atkinson, Tom Atkinson, John Atkinson and Jack Williams, for the murde

of Thornton Nance.

The jury retired at 6 o'clock Thursday evening, and in three hours brought in a verdict of guilty, with a recommendation mercy as to all.

The Little Country Church. Piedmont is the name of a negro church Hunter township, near Mountville, on the Georgia, Carolina and Northern railroad. A splendid farming section surrounds it, densely settled by an unusually intelligent and wellto-do colored population. Most of the white men in the neighborhood are wealthy land

On the night of the 5th of last August, set vice was held at Piedmont, and Edmund Nance, an old and respectable negro, with his wife and four sons, were of the congregation persed to their homes, but the band of mur lerers above named were on hand, though they had not been in the church. They quarrele with John Nance, and swore that he should not live. Old Edmund and his family were errified, and for a long time dared not venture in the darkness. It seems John Nanc had made indecent propositions in writing to John Atkinson's wife, and the husband and his brothers and friends were thirsting for vengeance. Finally most of the Atkin crowd left, and Edmund, with a lightwood torch, followed by his wife and sons, set ou for home.

In the Death Conflict. Before going many steps two crouching fig ares, at the side of the road passed them at a rapid rate. Five hundred yards from the church, where the road is worn below the level, and there is a hick growth of bushes and grape vines to th left. John Nance was held up by one or two men. In another moment the road was full of armed men. Shot after shot was fired, and for two minutes the flash of pistols lent brightness to old Edmund's torch. Then the mur derers fied, leaving Thornton Nance dead and Sam Nance dangerously shot through the lungs. John Nance escaped unhurt. The Line of Defense.

The defense undertook to prove that John Nance had a shotgun. One of the attacking party received a slight wound, presumably a the hands of his own friends. The defen also attempted to prove an alibi as to seven o the accused, and advanced the theory tha Nance was killed by Henry Suber, a negro who was certainly at the killing, but he avoided arrest. All the prisoners were positively identified by several witnesses as access

The tenor of the proof was that Jim Young fired the fatal shot. The state maintained that Thornton was killed in an effort to execute a carefully prepared plan to murder John, his brother. Sentenced to Death.

The prisoners were brought to the courtroom at 11 o'clock this morning. Judge Hudson overruled a motion for a new trial. Then they stood up to receive the death sentence. Eight in a line in front of the bar railing and two in the docks behind. It was a remarkable scene. As a body they appeared far above the average negro in intelligence. Lige Atkinson and the Adams boys are handsome mulattoes.

The Judge Talks.

Adams boys are handsome mulatices.

The Judge Talks.

Judge Hudson before sentencing, remarked that he had never before had such an experience. He commented on the habit of the colored people to select religious meetings as a time for deeds of blood. Then he pronounced the sentence. They are all to be hanged on the 23d day of October next. The prisoners showed no emotion, but as the judge concluded there was a wail from the audience. It came from the wife of Perry Adams. She was joined from the wife of Perry Adams. She was joine by another, and finally they were taken by the constables.

The Wall of Grief. The wives, children and parents were grouped together on the public square as the ten condemned men passed back to jail in charge of the deputies. The whole quarters resounded with their cries and weeping. The recommendation to mercy made by the jury has no effect under the laws of this state, and the entire gang will be hanged unless the governor chooses to interfere.

Sixteen Gashes in His Throat. NASHVILLE, Tenn., September 22.—[Special.]—
John M. Ryan, a well-known printer, attempted suicide while standing at his cases in The Banner office this morning. He was seen to take out his pocket knife and gash his throat. Before friends could reach him he had inflicted sixteen wounds that bled freely, but he will recover. He is a married man and has been despondent for some time.

Arrested in Florida. JACKSONVILLE, Fla., September 25.—A Gaines-ville, Fla., special to The Times-Union says Sheriff Fennell arrested in Rochelle, a village a few miles from here, a man answering the discription of Frederick Fitzsimmons, wanted alleghang county, Pennsylvania, for the murd of Detective Gilkinson.

LOUISVILLE, Kan., September 25.—Joe Stewart, a prominent citizen, shot and instantly killed D. E. Chisholm. Stewart met Chisholm in front of a sesioon and fired the contents of a double-barreled shotgun at him. Hard feelings had existed between them for some time on account of Stewart's having testified against Chisholm in a case in court in which the latter was defendant.

THE NEGRO WAS LYNCHED,

But He Had First Succeeded in Putting White Man Out of the Way.

ASHEVILLE, N. C., September 25 .- [Special.] Last night, about 7:30 o'clock, Fred A Tyler, an employe of the Richmond and Danville railroad, was shot and fatally wounded by Hezekiah Rankin, a negro, also employed by the Richmond and Danville. Tyler's duty was to take charge of the fincoming engines, and while in charge of one he ordered Rankin to open a switch. This Rankin refused, claim-ing it was not his duty, and at the same time struck Rankin on the head. Rankin went off, returning in a short while. He suddenly approached Tyler and shot him in the stomach, using a revolver. Rankin was promptly arrested by the railroad employes near by, and tied with a rope till the officers could be suppromed. Before they reached the could be summoned. Before they reached the scene, however, Rankin had been taken off by

a party of unknown men.

Early this morning his body was found hanging to the limb of a tree about two miles large number of people viewed the body as i swung with the toes just touching the ground. Ervin Allison, T. M. Bumgardner and W. H. Mayo have been arrested on suspicion and will have a hearing tomorrow. At this hour the coroner's inquest is in session. The testimony so far shows that the arrested men had nothing to do with the hanging, although they helped to arrest Rankin. Tyler is still alive,

CHARGING IT TO THE STATE. The Kolb Voucher Scandal Still Keeps to

MONTGOMERY, Ala., September 25. cial.]—Several weeks ago The Mobile Register charged that Agricultural Commissioner Koll had illegally paid out of the funds of his office the hotel bill of ex-Mayor W. S. Reese and the laundry bill of Professor Davis while at the Battle house in Mobile. Ex-Mayor Reese is the state organizer of the Citizens' Alliance and Davis was traveling with Kolb at th time addressing farmers' institutions. It leaked out here today that State Examiner Reeves had been instructed by the governor to examine into the charges made against Kolb and his report will be made public in a few days, and it has a sensational tinge. It is un-derstood that Captain Kolb makes no denial of the charges and admits that he paid Colone Reese's bill, as he alleges he had clearly a legal right to do. An anti-Kolb man said concern-

ing the sensational rumor:
"The examination has a deeper meaning than you suppose. It is expected to be very damaging, and if the supreme court fails to oust Kolb other legal means will be adopted to get rid of him. The people are tired of Kolb.

The Contested Commissionership. MONTGOMERY, Ala., September 'S.—[Spacial.]—
Argument in the Lane-Kolb contest over the office of agricultural commissionership was concluded in the supreme court today. The question it involves is the right of the governor to appoint a successor to Commissioner Kolb After hearing the argument of the attorneys the court adjourned to Monday morning, when a decision will be rendered.

the Offense.

NASHVILLE, Tenn., September 25 .- [Spe cial. - Four attempts have been made to rol the postoffice and store at Madison in this county. The first two succeeded and the thieves were never caught. The third time Tom Burton was caught with the plunder and sent up for three years. The fourth time furnished a sensation. Mr. Woodruff, storekeeper and postmaster, thought it was getting monotonous and set a trap gun at the back window through which the thieves had entered. This morning early the gun went off. and after daylight a pool of blood was found beneath the window, which had been cut and half raised. A trail of blood led out to the road, where a wagon had been standing and in which the burglar probably got away, as he was notfound. The amount of blood and the evidence of crawling showed that he was badly hurt. He is being sought for.

BLOODY DEED OF BOY MURDERERS.

Chaps of Eight and Ten Years Deliberately Drown Another Boy for the Purpose of Robbery.

LONDON, September 25.—[Copyright, 1891, by the New York Associated Press.]—Communi cations from the Pekin government offering compensation to foreigners who have suffered in the recent riots in China, with the stronger assurances of future protection, are received with distrust in foreign offices here. Hsu Ching Chang, Chinese ambassador to European courts, has recently been in St. Petersburg, where he succeeded in inducing the Russian government to withdraw from the joint action projected by the powers. He arrived in Berlin today with the view of trying to influence Chancellor Von Caprivi, but it is certain that he will not alter the determination of the German government to co-operate with the British in taking decisive measures

The Quarrel with China. The Pekin note as given to the papers fails to indicate the character of the appeal made by Hsu Ching Chang to the European government. He has urged that the imperial government was entirely honest in desiring to suppress disorders and seeking time to deal with the anti-force measurement and the transfer with the anti-foreign movement, and that to precipitate action on the part of the powers would defeat their object and bring China into

Mr. Gladstone's coming deliverance at the liberal federation meeting is invested with nent that he intends to review Lord Salisbury's foreign policy, and declare what his own be if he should again be placed in power. The be if he should again be placed in power. The federation proceedings are not likely to astonish the world with any startling variation from the cut and dried programme, but if the expectation proves correct, Mr. Gladstone will make the meeting memorable by a statement of the foreign policy, committing the liberals to a line of action directly exposed to that of Lord Salisbury. Mr. Morley has already declared that the next Gladstone administration will accomplish the evacuation to

The letters from Mr. Gladstone to the Servian politician Yovomovitch, which will appear in tomorrow's issue of The Spectator, are likely to cause a sensation in Europe, as they show the widest possible divergence between the liberal and present conservative policy. Mr. Gladstone advocates the closest harmony among the Balkan states; repudiates Lord Salisbury's diplomacy as tending towards the supremacy of Bulgaria over other states, and adds that he feels warmly with the lately subjected populations of southwestern Europe. adds that he feels warmly with the lately sub-jected populations of southwestern Europe. As the last phrase can only apply to Austria's taking possession of Bosaia and Herzegovinia, the latter is interpreted to mean that Mr. Gladstone desires to oust the Austrians from Bosnia to support the formation of a federa-tion of the Balkan states.

The Liberals Confident. Gladstone liberals continue to arrange for the future on the supposed certainty of their being in power by the autumn of 1893. The Crime of Two Boys. The story of two Liverpool boy murderers, as detailed at the inquest on the body of their little victim, surpasses in peculiar horror that of any deed in the annals of English crime. The boy Shearnon, nine years of age, having been deprived of his clothes as a punishment for truancy, got hold of a piece of sacking with which he covered his nakedness, and with which he covered his hacdness, and then left his home. Having met Crawford, an equally vicious youth of eight years, the two decided to enticeaway the first decently dressed lad they could find and rob him of his clothes. They met a lad named Eccles, eight years of age, and induced him to go with them to play on some rafts floating on the surface of a body of water contained in an excavation. Shearnon and Crawford delayed their nurderous work until the other lads playing on the water had left the scene. Then they pushed Eccles into the water, the depth of which was twelve feet. Finding it awkward to get at his clothes, they helped him out, stripped him and then pushed him in again. As the victim struggled a great deal, he was helped out again and was taken to a higher past of the adjacent mason'y and flung over the third time. The murderers afterwards stamped upon his body and watched two hours to see if he moved. They then divided the spoils.

They confessed with absolute calcusness.

When the queen received the news of the disaster she stopped the fetes in honor of her daughter's birthday and requested the minister of justice to send all details.

MERCIER DEFIES ANGERS.

A Little Row Between Quebec's Premier

MONTREAL, Que., September 25.-A dis-patch from Quebec, referring to the political

situation said:
"Lieutenant Governor Angers, who is said "Lieutenant Governor Angers, who is said to be harassing his ministers into doing something that will warrant him in dismissing them, today demanded that the government have a public accuser or procedutor, to conduct the case against the ministers before a royal commission, and refused to allow them to be represented by commentant the investigation. The wildest refused to allow them to be represented by counsel at the investigation. The wildest rumors are current with regard to Premier Mercier's intentions in event of his dismissal. It is said that he will take no dismissal from Angers; that he will remain in office and defy him; that he will call together his supporters, who are a large majority of the legislature, and adopt resolutions or take some other proceeding consuring the lieutenant governor and calling upon the governor general to remove him at once; otherwise, this province will declare itself out of the confederation and take the consequences, which may lead to annexation to the United States.

HORRIBLE STORIES FROM RUSSIA.

Distress on the Increase-People Starving to

London, September 25.—The Telegraph's St. Petersburg correspondent says: Distress among the peasants is increasing, potatoss are failing in many districts, and a new insect known as Sooka, more destructive to corn than the Hessian fly, has appeared. The whole population of some villages in Stiakan are dying of stavation.

The doctors prescribe corn instead of medicine. There are stories afloat of parents sating their children in Kijini Novgorod. The authorities in many places are levying tax on laborers wherever they obtain work.

The latest dispatches from Siberia report railway strikes assuming serious aspect. The governor advocates vigorous measures in dealing with the strikes.

BURNING THE GRASS.

the Grazing Lands.

ARKANSAS CITY, Kas., September 25.—A great many wagons are trailing back over the Cherokee strip with people who failed to get claims in Indian lands opened last Tuesday. Almost all of them will drift about, living under canvas, waiting for the Cherokee strip to open. They seem to feel as if every one on the strip is their enemy and are said to be firing the grass in hundreds of places. They do not know when they are on the strip or when on the Indian reservations, and reservations along the Santa Fe have suffered greatly About Ponce yesterday the grass war burning on every side, and it was only riter a hard fight that houses a little way from the station ware save.

nght that houses a little way from the station were saved.

To the west the whole line of the horizen was a wall of smoke, looking like a great chain of mountains covered with snow to their base. The grass is getting very dry and burns readily, and fires are sure to cover a large part of the strip and render it useless for winter grazing.

men on the Mobile police force, twenty-seven years of age, full six feet in height, intelligent, active, alert and courageous.

February 10, 1887, King, while in the line of his duty, afrested a negre named Richard Richards, who resisted and savagely bit the thumb of the policeman's left hand, but was brought in and locked up. Next day King was very ill from his wound. The armswelled, then in time the illness spread through the system, affecting the left side of the body chiefly, finally settling in the left foot and leg. He was confined to his bed from this cause for six months. When he came from his sickroom, it was with a constitution entirely shattered, instead of the stalwart young man who was known as Policeman King. He was in looks and in gait an aged man.

He was, his doctors said, the victim of blood poisoning. Richards, his assailant, was described as a "blue-gummed" negro, and such are popularly believed to have poison in their bite. King never recovered from the injury. His lameness became more pronounced, and he became a hopeless and helpless invalid, failing perceptibly until death released him. The most skillful physicians of Mobile and of New Orleans have been battling with the singular malady, which, in the end, baffled them.

grocers, \$150,000; insurance unknown. McALPIN & TATE, \$10,000. MINOR LOSSES from the flames and water foot up nearly fifty thousand dollars.

The Discovery of the Fire. The fire was first discovered shortly after o'clock, in the rear of the second floor of the Guckenheimer establishment, a handsome fourory structure, erected two years ago at a cost of about seventy-five thousand dollars. It is at the corner of Bay and Jefferson streets, and occupies almost a half block. The fire depart ment experienced great difficulty in securing an entrance, owing to the iron shutters, and by the time they had their streams on the nes they had spread to the upper floors The inflammable contents of the building made the spread of the fire extremely rapid, firebrands to all parts of the building, and it was but a short time before it was o

The entire department was called out, but failed to check it. The flames next went to the frame dwelling and saloon on the opposite porner of Jefferson street, the property of the DeRenne estate. It was soon wiped out. Then the fire found its way into the establishment of Henry Solomon & Sons, adjoining Gucken-beimer's building. Solomon & Sons occupied three buildings, each of which was filled to its utmost capacity with groceries and liquors.

The Fire Spreads. Here, as in the Guckenheimer building, the explosion of the liquors scattered the fire, and by 11 o'clock all three of the buildings were gutted. In the rear of these buildings, across Bay street lane, a number of small properties were more or less damaged by fire and

The stock in the adjoining building on Bay, occupied by W. D. Simpkins, commission mer-chant, was injured and probably almost destroyed by the water.

The Popular Excitement, Great excitement prevailed in the vicinity of the fire, and for some distance around goods removed to a place of safety. The Harnett house, in the rear of the burning buildings, was vacated by the guests. At times its destruction seemed assured, but at this hour, idnight, the fire is under control, and ther

is no danger of it spreading further.

Gackenheimer & Son, and Henry Solomon & Sons telegraphed to various points for goods tonight, and will open up in new quarters tomorrow. It is be-lieved that the total insurance is over four hundred thousand dollars, so that the loss to those burned out will not be much more than a hundred thousand dollars.

THE STRANGE YOUNG MAN

Who Is Lying Dead in Tennille-Not Yet Identified.
TENNILLE, Ga., September 25.—[Special.]—
The young man killed here on Wednesday night by J. H. Davis has not been identified

CHANGES IN THE CONFESSION.

Rochester Presbytery Changes Several Sentences in the Confession of Faith.

Rochester, N. Y., September 25.—The presbytery of Rochester held its stated fall meeting at Munda, N. Y. A matter of chief interest and importance that came up for consideration was the confession of faith as revised by the committee of the general assembly. In chapter 3, the clause "God hath predestinated some of mankind unto life," was changed to "predestinated a multitude whom

changed to "predestinated a multitude whom no man can number."

The last sentence is the sixth section of the same chapter was struck out, to wit: "Neither are any other redeemed by Christ effectually called justified, adopted, sanctified and saved, but the elect ouly."

called justified, adopted, sanctified and saved, but the elect only."

The most remarkable thing done was to vote that the seventh section, chapter 3, both in the original form which declares that "the rest of mankind God was pleased to pass by and to ordain to dishonor and wrath," and revised, the form should be omitted altogether and the fyllowing adopted as substitute for it. "The decrees of God, concerning all mankind, are to be so construed as to be in harmony with these declarations of scripture, viz: that Christ is propitiation for the sins of the whole world, and that God is not willing that any should perish, but that all should come to repentance and live."

This change having been made it was decided to be necessary to strike out the last section of the chapter which relates to the high mystery just expunged.

Other changes were made such as the following:

In chapter 6, section 2 the statement

Other changes were made such as the following:

In chapter 6, section 2, the statement, "Defiled in all faculties and parts of soul and body," was modified. In the third section of the same chapter the clause, "The guilt of this sin was imputed," was dropped, because to say "We all sinned in Adam" is to say what is utterly unintelligible and unconceivable, and the whole idea is contrary to natural justice, and to express the declaration of the scriptures, "the son shall not bear the iniquity of the father." In chapter 7th, the clause, "promising His holy spirit to all that are ordained unto life" was changed to "all that ask Him."

A similar change was made in chapter 10, section 4, where it is said the non-elect "may have some common operations of the spirit," should read "may have gracious operations of the spirit."

THE BLACK MURDERER CONFESSES.

LAGRANGE, Ga., September 25.—[Special.] Allen Bray, the negro suspected of the mur-der of Mrs. Prather, near Mountville, has der of Mrs. Prather, near Mountville, nas made a confession to a negro companion in the jail. He says that he was assisted by two negro women, and that their purpose was rob-bery. Dr. Stack made a careful and thorough microscropic examination and chemical analy-sis of the spot found on his clothing, and gave it as his opinion that it was blood, and the negro's confession confirms this.

At this writing no one besides the sheriff STITUTION'S reporter and a few others know that Bray has made such a statement. At this writing Sheriff Henderson is safely on his way to Columbus with the guilty man, and has by this movement issued, the negro's life, and Troup county from a lynching. Indignation runs high. Mob law would have prevailed had not the sheriff proved himself so careful' and

Indignation runs high, and a great many are of the opinion that the negro is still near here, rt that he was carried to Columbu being a hoax. However, it is safe to say that he was carried, as is reported. A great many citizens are armed with Winchester rifles and are swearing vengeance whenever the negro is brought back. It is safe to say that the law will never take its course, but that Bray will end his life on the limb of a tree, swung there-

ON THE COTTON EXCHANGE.

After a Day of Fluctuations, the Market Closed Quiet and Steady.

NEW YORK, September 25.—The Sun's cotton article says: Futures opened at four to five points advance, closing quiet and steady, unchanged on near and two to three points de cline on late months from yesterday's closing prices. The early advance was due to the much stronger report from Liverpool. The quick decline that followed was due to the early indications that the movement of the crop for the day and week would exceed the figures of last year, which at that time were regarded as something phenomenal.

The selling to realize which followed caused a decline of ten to twelve points from the best prices, when January contracts brought 9.4.

Then the bulls brought forward the drought in

Then the bulls brought forward the drought in Texas in explanation of the large receipts. The crop was forced forward, they said.

It was also reported that stocks in Liverpool are found to be 45,000 bales less than the running account. The very strong spot market and the generally dearer spot markets at the south were quoted in fayor of futures, which made a slight and partial recovery. The in-terior receipts were doubled by many. Spot terior receipts were doubled by cotton was quiet, but firm.

BRIGHT PROSPECTS AHEAD.

avorable Weather for the Crops Gold Returning from Europe. New York, September 25.—Business failures during the past week number for the United States, 210; Canada, 34; total, 244 failures, compared with 210; Canada, 34; total, 244 tailures, compared with 239 last week. Dun's weekly review of tradejsays: With extraordinarily favoring weather, tobacco, as well as corn, has matured, and the cotton prospect has been much improved. But while stocks were active and rising until Thursday, there came that day a surprising break in Missouri Pa-cific and Union Pacific with rumors that a reor-ganization of the latter would be defeated and that Missouri Pacific would indefinitely postpone its dividends, so that this stock fell suddenly

its dividends, so that this stood about 10 per cent.

Money became closer, notwithstanding arrivals and considerable further shipments of gold from Europe, the impression prevailing that some large lenders would produce a temporary artificial

pressure.

None of the disturbances threaten to affect the general prosperity which the enormous crops now promise, and the failure of a house of extraordinary repute and strength to sustain the price of corn is at once proof of general prosperity.

Improvement Reported Everywhere.

Reports from other cities indicate a continuance of the general improvement in trade. At Philadelphia the iron market improves, and the demand for timplate is especially increased; coal is dull, but jewelry is fairly active, and domestic todult, but jewerly is lainly active, and domestic tobacco is improved, as well as liquors, while
there is a fair demand for chemicals, and
the volume of trade in paints is
good. Improvement is seen at Galveston and at
New Orleans, where cotton slightly advances and
rice is steady, and at Savannah, where cotton receipts are heavy.

The Money Market.

Reports as to the money markets are generally avorable, but very active. At New Orleans collections are fairly good almost everywhere. Gold receipts have as yet hardly balanced the large shipments to the interior for products, and government disbursements have reached a standstill, as the treasury now receives few bonds for extension or redemption.

ss the treasury now received as the treasury now received as sion or redemption.

But several millions more gold will arrive from Europe within a few days, and it is admitted by the British authorities that shipments will be large for some months to come.

Better Demand for Iron. Better Demand for Iron.

The great industries are doing well. There is a distinctly better demand for iron without an advance in price. Copper is stronger on large consumption; the distribution of tin is larger, and lead is stronger. The steady sales of wool give proof of consumption equal to last year's, with an unprecedented demand for good white flannels. It is notable that the demand changes from inferior to better goods. In cotton goods buying is larger than for years in many lines. Wheat has advanced I cent, but corn has fallen 6 cents during the week. Cotton is three-sixteenths cents higher, but a sharp fall of 1½ cents has cocurred in coffee. Earnings of railroads are good; enormous crops are moving, and trunk line rates, east bound, are to be advanced 2½ cents.

The Winchester Rifle.

The first witness for the state was Charley Bradley, who testified in substance as follows:
"I knew Frank Tuggle; he was shot by Joe Angust, Frank Tuggle and I were together at the time. Some time before that, the same day, Frank and I had seen Lorenzo Ozburn near Pickett's store. Frank asked Lorenzo about his hat; told him that he under stood that he had got his hat at a party a shor time before and left his (Lorenzo's) hat in its place. Lorenzo told him that he would let him have his hat when he brought back his own (Lorenzo's) hat. Frank told him that he would not wear the hat, as it was an old hat and not fit to wear. Frank asked him where his hat was. He said that his brother Joe had the hat. Frank then pro posed to go to see Joe about the hat. Lorenz agreed to this, and we rode down to Mr. Chat Bates's house, where Joe was. Joe came ou toward the edge of the yard, and Lorenze asked him if he thought that he ought to give Frank's hat back to him before Frank brough his hat to him. Joe said no.

The Fatal Meeting. "Frank then told Lorenzo that he could not ake the hat from him, but would send a con stable after it, and turned to ride off. Lorenzo

"'You might as well say that I stole your "Frank said:

'You just as good as stole it, as you took it whilst I was asleep. "Lorenzo then said:

"Frank told him that he would not leave ome and say that, and Frank and I rode off Lorenzo started into the house and told us to wait. We rode about a hundred and seventy yards up the road and stopped. About that time Joe and Lorenzo came out of the back door and came around the corner of the house Lorenzo had the rifle in his hand and Joe had a pistol. They came out into the road; Jos ook the gun from the hands of Lorenzo, and

"Let me have one of them." eave there. We started off in a lope, and Joe began to fire.

The Firing Begins.

"He fired two or three shots before Frank fired. Frank drew his pistol and fired once after he was shot, He tried to fire again, but could not, and handed his pistol to me, and I fired once. We were about two hundred yards from Joe and Lorenzo Ozburn when Frank was shot. I heard the ball strike him, and was slot. I heard the basistee lim, and immediately afterward saw the blood running out of a hole in his coat. He was shot in the back, and the ball passed entirely through his body. He rode about two hundred yards before he fell off from his mule. He died imme diately after he fell to the ground.

The Defense Set Up. The defense was that Lorenzo Ozburn did not aid or abet Joe in the killing of Tuggle, and that Joe did the killing in self-defense. An old man named Johnson, from Morgan county, a brother-in-law of the defendant, and of Bradley, the main witness for the state Several witnesses testified as to threats made by Frank Tuggle against Joe Ozburn, but it did not appear that the threats had been com-municated to Ozburn. Several witnesses swore that they would not believe Charley Bradley on oath. However, his testimony in this case

was corroborated by credible witnesses. FROM OUR NOTEBOOK.

MRS. GARLISLE DESERTS HER HUSBAND

And Skips with W. L. Alley-Arrival of the Guilty Couple in Fort Valley and Their Flight.

FORT VALLEY, Ga., September 25.—[Special.]—About three weeks ago a man who registered as W. L. Alley arrived in Fort Valley, from Enfield, N. C., and made inquiries as to a storehouse and dwelling, saying that he in-tended coming here to do business. He was received with that warm cordiality character-istic of the Fort Vallian, and in a short time

had made satisfactory arrangements.

After remaining here for three or four days he left, saying that he would return in a day or two with his family. This he did, bringing back with him his wife and eleven-monthsold girl babe. He rented the Myers residence on Main street, buying his house furnishings

Everything went levely for a few days, and nent and worthy citizens.

Shortly after the domiciliary installment of the couple, Marshal Cooper had his suspici aroused by an article appearing in THE ATof a man in North Carolina with another man's wife. Singling out Alley, the descripwrote to the parties in North Carolina, telling what he had learned. Immediately there came a telegram authorizing the arrest of Alley—that he had run away with the wife of J. C. Carlisle, a citizen of Enfield. This was

last Thursday morning.

Marshal Cooper made the arrest as authorized. Alley made no resistance, nor denied the allegation, but asked what the marshal in-tended doing with him. He was told that he should be detained until the authorities arrived or as long as the law would permit. Alley did not like the idea of going to jail, and told Marshal Cooper that he would pay for the services of any one whom he (the marshal) might denntize to watch him at his home Marshal Cooper consented to this and placed a watch over the prisoner. He then tele-graphed what he had done to Carlisle. He received a telegram in return saying that an officer would soon be here to take Alley in charge and to hold him.

Alley Is Liberated. This Marshal Cooper did, keeping watch over Alley until late Friday afternoon, or just thirty-six hours from the time he was arre at which time the prisoner demanded a trial, emoval to North Carolina or liberation. Mrs. Carlisle is described as being a wom of intelligence, culture and beauty, and why she left her home and the man she acce above all others is a mystery. Nothing could be learned as to the past life of Mr. and Mrs. Carlisle, whether she had married Alley at divorce or whether they were married at all. It is likely that there will be further develop-

SAVANNAH, Ga., September 25.—[Special.]—
The negro with a Winchester rifle must go, at least so far as Effingham is concerned. White men of doubtful purpose will also have to give up the deadly weapon in that section of the state. Communities rise up occasionally and make laws for themselves. This is what the people of Guyton have done. The following is the substance of a resolution adopted by its citizens:

"Any person hereafter visiting this town armed with a Winchester rifle shall be waited upon by a standing committee and required to show good cause for carrying such rifle, it being the unanimous opinion of the meeting that one armed with a Winchester is prima

facie in quest of gore." Several colored men have been waited upon, and given due notice that parading the streets of that town with a rifle must be a thing of

In other parts of Effingham the people are expected to take similar action. Turpentine men in this section of the state would be glad to see the carrying of Winchester rifest stopped by a heavy tax or in any way most practicable and forcible. Every year, while the negroes are engaged in playing cards, dis-putes arise, and the men with the Winches ers usually come out ahead, leaving a few bodies for the county to bury. The turpentine operator loses a valuable hand by death each time, and another one becomes a fugitive from justice.

Mr. Z. E. Holland boarded the train at Dublin and was coming to Macon en route to Hillsboro, where he expected to be with his family. When he boarded the train he was quite ill, but no one thought him dangerously so until he reached Dry Branch, where he died. The body was brought to this city and left in the hands of Undertaker Clay, who dressed it in a burial robe and is now holding it waiting for instructions as to its disposition from Hillsboro.

When the body was undressed, a number of letters, notes and other documents found on his person declared the man's identity. Besides the letters, some morphine and other drugs were found in his pockets.

On his chest a large blister could be seen,

and the man's whole appearance seemed to in-dicate that he died of consumption.

A gentleman on the same train with the un-fortunate man said that he was a school teacher at Dublin, where he had been residing for some time.

THE ANTI-BARROOM CANDIDATES.

The Committee of Forty Meets with Closed Doors

Last night the committee of forty of the 1890 Club held a meeting in Prohibition hall. Every member was pledged not to divulge any of the secrets of the meeting, and as everything that was done was regarded as a secret, no definite information has leaked out.

One of the members went so far as to inti-mate that a ticket of anti-barroom candidates or the city council had about been perfected. for the city council had about been perfected.

Finally, however, two aldermen and one councilman from each ward were nominated.

The names of these nominees will be kept a secret till they decide whether or not they will accept. If any of them decline, then others will be substituted in their stead. One thing the committee of forty, backed by the 1890 Club, is determined to accomplish, and that is to place in the field a ticket composed of men who will was a relemitless war on the barto place in the neid a steady on the bar-who will wage a relentless war on the bar-

The Blaine-Harrison Programme.

The recent semi-official announcement that Mr. Blaine will take occasion, about the first of next year, to declare in explicit terms that he will neither be a candidate for no accept the republican nomination for president is, no doubt, based on facts. The formation it contains is not at all new, and the character of the announcement shows that it was given out through the white

In other words, Mr. Blaine himself has said nothing, but the movement in his favor has been taking such an overwhelming shape in the republican party that the administration finds it necessary, for the protection of Mr. Harrison, to remind the public of the agreement between the president and the secretary of state. The agreement is one of long standing, and was called to the attention of the Blaine republicans as long ago as last spring. It has also been nervously alluded to by Son Russell Harrison in his various publications, comic and otherwise. So that, no matter what Mr. Blaine may now desire, it seems to be certain that he is bound to do all he can for the renomination of Mr. Harrison-bound by a contract of his own making. It is an agreement from which he cannot escape. It exists, and he is bound by it, no matter what may be his present feelings. Yet, if he has not lost all ambition, it must be grinding to the last degree to witness the spontaneous uprising in his behalf in the republican party and be unable to take advantage of it.

It must chafe him, too, if he is at all Bensitive, to feel that he has been practically outwitted by such a man as Benjamin Harrison-a man who carries to the highest office in the gift of the people the talents that go to make a popular country bailiff. Conceding that this is the situation, it will, nevertheless, remain a puzzle to the average mind why Mr. Blaine proposes to delay his formal announcement four months and half. If he doesn't propose to run, why not say so now and settle the matter once

It has been suggested that Mr. Blaine would be very glad to do this, and thus rid his mind of the affair, but the administration is of the opinion that if the Maine statesman withdraws too soon, some other prominent republican will pop up as a candidate and possibly worry and frighten Mr. Harrison: whereas, if Mr. Blaine saws wood and says nothing until a short time before the convention, he will be able to hand his friends over to his boss.

It is a pretty programme, and it promises to be successful

For the Superstitious.

A few years ago when Maxwell, the mur derer of Preller, in St. Louis, was sentenced to death, his aged father crossed the ocean from England to plead with Governor Morese for mercy.

The governor was inexorable. He said that Maxwell would have to hang.

Then the prisoner's father in his frantic grief invoked a curse upon the governor's head.

But the man thus pointed out as the ob ject of divine wrath paid no attention to old man Maxwell, and the law took its course. A few days ago this same Morehouse, in a sudden fit of mental depression, cut his

throat and died in horrible agony.

There is a broken-hearted old man acros the sea whose dim eyes will brighten when he reads the news. And there are people who will think that his curse had something to do with the governor's suicide.

The Negro and Africa.

Bishop Henry M. Turner, of Georgia, is a very eloquent colored man, but it is to be doubted if, with all his eloquence, he will be equal to the task of convincing any large number of his colored brethren of the south that it is to their interest to emigrate to Africa and there undertake to found an Afro-American republic, to be controlled, managed and made successful by negroes. We observe that the bishop is not wasting his eloquence on his own people, but is pouring it, warm and fresh, into the ears of New

It is to be borne in mind, however, that there is among the negroes of the south an element which will not need eloquence of any kind to persuade it to emigrate to Africa or to any other place under the sun or moon. All that the bishop has to do is to make little campaign among the brethren in this section and the element to which we have referred will rush to his support, so to speak and swarm around his commissary depart-

But this is probably not the element which the bishop would select to form the basis of his Afro-American republic. It is the happy-go-lucky element, which has not made headway since emancipation, and which is in a state of restless and uneasy vagabondage, still hoping to better its condition while escaping continuous work. This is the element which made itself conspicu ous recently as the victim of a number of

bogus Liberian agents and advertisers. We are unable to perceive what hope there can be in Africa for the southern negroes at this time. They are still too close to the savagery of that continent, it seems to us, to give success to an experiment which has for its ultimate purpose the civilization and evangelization of their ancestral home. Such an experiment ought not to be a doubt-ful one. It will do very well to talk about four or five hundred were the contractions of the hundred were our or five hundred years from now, when the American negro has been thoroughly ac-climatized to civilization and to Christianity. He has had a tremendous start in that direc-tion, it is true. Slavery was a university in

ised, as even the more thoughtful abolition-ists now admit, but he is still too young in this business to be thrown wholly on his own

chief instrument in Christianizing the dark continent, and the idea is undoubtedly an attractive one; but it is necessary that the in-strument should be hardened and tempered. Meanwhile, let Bishop Turner and other representatives of the race take hold of the interesting thought which lies behind their idea that it is the destiny of the American negro to redeem Africa—namely, that slavery itself, instead of being a great wrong, was, in fact, a dispensation of providence and a part of the divine economy. This will help them to live pleasantly here until the time comes to lift Africa out of the fog.

Will Oklahoma Beat This?

We have no doubt that Oklahoma wil rapidly fill up with settlers, but it is no likely that it will equal the new state of

Washington in the progress of its population. The fact is, Washington's record is phe nomenal. Ten years ago it had two cities with a population of over fifteen hundred each. Now it has twenty cities far ahead of that figure. Some of our southern cities within the past decade have increased 200 or 300 per cent, but Seattle has increased over 1,000 per cent, Tacoma over 3,000 per cent, and Spokane 5,000 per cent.

The following table gives the population of Washington's nine leading cities in 1880

	POPULATION.		INCREASE.	
TOWNS.	1890.	1880.	No.	Per Ct
Seattle	42,837	3,533	39,304	1,112.48
Tacoma	36,006	1,098	34,908	3,179.23
Spokane Falls	19,922	350	19,572	5,592.00
Walla Walla	4,709	3,588	1,121	316.24
Olympia	4,698	1,232	3,466	281.33
Pt. Townsend	4,558	917	2,641	397.05
Fairhaven	4,076		4,076	
Whatcom	4,059		4,059	
Vancouver	3,545	1,722	1,823	105.87

rate, Washington will soon become one of the leading states of the republic.

But the new states and territories do attract settlers from the south as they did a few years ago. Our people have found out that they can do as well or better at home than anywhere else. They have made up their minds to stay where they are and do their level best. In another ten years they will have good reason to be satisfied with their choice. The south may not rush along like Washington, but she is getting there.

Let the Gould Stocks Alone. There is a disposition among stock buyers

to let the Missouri Pacific and other Gould stocks alone. When the Missouri Pacific, the other day. passed its dividend Wall street was not alto

gether taken by surprise. It was evident that Jay Gould was not in sympathy with the rising market, and there was good reason to believe that his object was to cover about two hundred thousand shares of stock which he and his associates were short of. His scheme was vigorously resisted, and for some time to come his stocks will be decidedly unpopular.

The revival of business in Wall street is the result of prosperous conditions throughout the country. Naturally, people look to the stock exchange as the barometer of prosperity, and it goes without saying that when it is unduly controlled in the interest of one man the effect is disastrous, for a time at least.

Mr. Gould is a plutocrat or nothing. He is ready at any time to antagonize the best interests of the country in order to make a scoop. When all the conditions favor a rising market he will exert his powerful influence to depress it, if it will put a few additional millions into his pocket. He is utterly indifferent to the losses and suffering entailed by such a course upon the people at

Under the circumstances, if men will spec ulate in stocks, the best thing they can do is to fight shy of everything that is in Gould's grip. It is running too great a risk to stake good money on the caprice of such a man, Fortunately, there are railroads, mines and other forms of investment which are not absolutely at the mercy of the "Little Wizard." Why not let the capital employed in speculation seek these channels? It is not safe to take part in any venture that Mr. Gould happens to have under his thumb.

The Sky-Scraping Craze.

The New Orleans Picayune protests against the American mania for tall build-

In Europe this style of architecture is not opular, and there is no reason why it should be here. The Picavune says:

Does it never occur to the architects who plan these lofty piles that one day the earthquake will shake them to ruins? The United States cannot claim any immunity from such convulsions, Earthquakes are common in California. The earthquake at New Madrid, Mo., early in the century, was a formidable one, making extraordicentury, was a formidable one, making extraordinary changes in the topography of a large area of country. The earthquake at Charleston is so fresh in memory that it is not by any means to be ignored. It would appear that earthquake periods come in cycles. There is no reason to suppose that New York and Chicago are any more secure than are Charleston or San Francisco. A lofty building is like the pendulum of a metronome, centered below and vibrated in space above. An earth tremor which has a vibration of one-quarter of an inch at the surface of the street might be represented by a swing from the perpendicular represented by a swing from the perpendicular many fold multiplied at a height above ground of 200 feet. Such vibrations would shake down these sky parlors to irremediable run, and it is wonderful that any prudens architect will take such desperate risks with his art.

perate risks with his art.

Still we go on building houses ten and twenty stories high. Chicago will soon have a house 200 feet high, and there is no telling what will follow next. Ancient Rome had to prohibit the building of houses to a greater height than eighty feet. When our next earthquake comes along it will teach us a lesson.

EDITORIAL COMMENT.

THE ACTIVITY of the proselyting Mormon apos-tles is indicated by the expenditure for their trav-els back and forth across the country and the transportation of their disciples. It is estimated that two roads have earned \$250,000 from this class of traffic alone within the past year. These roads are the Union Pacific and Kansas City, Fort Scott and Memphis. The Memphis route brings the foreigners from the southeastern At-lantic seaports and the Union Pacific takes them from Kansas City to the Mormon settlement them from Kansas City to the Mormon settlements in the great west. Enough proselytes pass through Kansas City, in a year, says The Times, of that city, to keep the Mormon colonies in the west ever thriving. LETTERS FROM THE PEOPLE.

Free Coinage, Dishonest Money, and Wh

Is Responsible for It. EDITOR CONSTITUTION-Like the great body the democratic party, I was very partial to Mr. Cleveland, and thought he was the man above all others who should be the candidate of the party in 1892. But when he wrote that letter defi the new results the free coinage of silver, I then thought the party would be compelled to get another man or make the contest with a prospect

of defeat.

Mr. Cleveland is a man of extreme firmness and great honesty, and it is difficult for many democrats to harmonize his present position with the fine record he had previously made, but associations and location may have had much to do with his judgment on this great question. Being human, he is not infallible, and we cannot, as a great party, afford to give up our judgment as to where he is not infallible, and we cannot, as a great party, afford to give up our judgment as to what is right and for the best simply because Mr. Cleveland differs with us. Our great democration party, north, south, east and west does not look solely to Wall street or the city or state of New York when we go to make up an honest judgment as to what is best for the en-tire country. We, as a whole, cannot permit any one man to think for us or judge for us on so vital a question.

one man to think for us or judge for us on so vital a question.

Some have much to say about "homest money," If our money is dishonest, who are to blame for it except those who are trying to abolish silver coinage entirely? And how easy would it be to add a little to the dollars and make them of the required weight and value? Or, perhaps, they prefer to centinue the coinage of the dollars which they now call "dishonest money" that they may have an excuse for refusing to give the people free coinage, upon the pretense that it would be dishonest to allow them to have their aliver increased in its value by having it coined. And it would seem that if it is dishonest to allow the citizen who owns the silver to profit by would seem that it is a landnest to allow the citizen who owns the silver to profit by free coinage, that it is equally dishonest for the government to buy up the bullion as bullion prices, and make a like profit by coining it. The government is the only responsible party for the sin if the money is dishonest; and to set up

am obliged to raise money to carry on my mining business. The superintendent replies, I am sorry to say, sir, that I cannot tell you who will huv it. The truth is, the republican party now controls this government and they are opposed to coining silver at all, and Mr. Cleveland, now a prospective candidate of the democratic party in 1822, is opposed to free coinage of silver if not to any coinage of silver at all, and there are some democratic in the city of New York as well as in the state of New York, who, like the republicans, wish to kill silver entirely, and I am not certain that silver will ever be re-established, even should Mr. Cleveland be elected, and there are a few small politicians scattered about, even in the south, who speak of this silver coinage question as the "silver craze," and of Governor Campbell, of Ohlo, as being handicapped by the democratic platform of that state. So that should the democratic party become demoralized by Mr. Cleveland and the democratic who are ruled and controlled by him, silver will have a bad showing. The man with the silver replies: "What will we silver miners do?" Well, I cannot tell you. Should silver be entirely abandoned as a coin the price of it will be greatly reduced, which would also cause a great reduction in the amount of money in circulation among the people and a consequent rise in all the necessaries of life. The man with the silver turns away in despair.

Now the question arises: Is it wise thus to destroy the value of silver and the men who are engaged in its production, when by a different policy of great a volume could be added to the currency?

GOSSIP OF A DAY.

A young man whom everybody here knows he spent several weeks doing the theaters and everything ;else in sight. He wont, in days agone, to talk considerably in favor of lower prices at the theaters, and a favorite heme with him was the "admission which you find made prominent in the theater 'ads" in the New York papers.

"I've learned better," he says now. "Tve listened to this talk about prices at DeGive's. and have taken part in it, but I've learned

Then, continuing, he added: "That 50 cents usiness is all a myth. It means admission to the top gallery, nothing more than that; to get anything like a decent seat at any New York theater, you have to pay \$1.50, and if there's anything especially good, you're lucky if you get seats at \$2, \$2.50 or \$3 apiece After going all the rounds, I've come to the conclusion that not only are Mr. DeGive's regular prices lower than New York prices for the same plays, but that his advanced prices for a few big attractions are also most reason able. And another thing: No theater in the country has a finer list of attractions than DeGive's; few, if any have so fine."

That young man talks sense.

Arthur Warde writes me of the great succ in the northwest of "The Lion's Mouth," Guy Carlton's masterpiece which Frederick Warde is making a feature of this season. Warde is fast becoming, if he has not already be come, a really great actor; and as the play is one of the best by any American author, the unstinted praise of the northern and western papers must be deserved.

GENERAL GEORGIA GOSSIP.

The next political campaign in Georgia will be an early and vigorous one. Already our weekly exchanges are nominating legislative candidates, which appear to be as thick as autumn leaves. If they are, indeed, as numerous as reported in some sections, the editors will reap a golden harvest from announcements at the standard price—\$5 each, cash in advance.

Here is a candidate for legislative honors, whose

nique announcement appeared in a recent issue f The Meriwether Planter: "I was carried to Atlanta last week under the charge of selling liquor, by revenue officers, and while there introduced three bills—two, 10s and one 5—and they all passed. I am in the race for the legislature next time, and ask the support of the public.

It would seem that the Georgia moonshiner is ot only afflicted by revenue men from without, but he has foes in his camp who are equally as fatal but he has loss in his camp who are equally as tatal to his basiness. Recently, in Gilmer county, a thief carried off a whole distillery. It was, how-ever, a government affair; but amateur moon-shiners, in need of copper stills, are raiding the camps of their brethren in other localities, and are proving far more annoying than Uncle S

The hanging of Morea Kitchen, at Savannah, had rather a queer effect on some of the prisoners in the jail. Ever since the event they have been unusually quiet, and at times as death-like silence prevails in the prison. The most peculiar effect, however, was experienced by Lucius Dotson, the negro murderer of Jeff Coates, who will doubtless be the next man to die by the ope. After the hanging was over he told one of the jall officials that he didn't want a new trial, he could go to heaven, evidently having gotter the notion that the rope and trap-door is the most direct route to the celestial kingdom.

Many ridiculous verdicts of coroners' juries are on record, says The Savannah News, but proba-bly there is none more so than that rendered by the jury which sat in inquest upon H. J. Jones, killed by J. G. Pittman in Savannah last week. Killed by J. G. Pittman in Savannah last week.
After considering the evidence for nearly half an
hour the jury returned a verdict, reading:
We, the jury, find that H. J. Jones came to his
death by a knife wound in the hands of J. G.
Pittman.

How one man can possibly die from the wor of another, as the verdict certainly makes it ap-pear, is a conundrum which probably no one can selve except the men who rendered it. No doubt the jury intended the verdict to mean that the deceased came to his death by a knife wound in flicted by littman, but under the peculiar word-ing it doesn't convey any such idea. It says sim-ply that Jones died from Pittman's wounds. The verdict deserves to be framed and placed on exhi-

One of the latter said to him: "Colonel, how do you stand on the Ocala platform, which, you know, embraces all the demands of the farmer?"

"Colonel Wooten replied, "I know of but two platforms to which my allegiance has been demanded—one is the republican, the other the democratic platform. All of you know that I am a democrat, and by the demands of that party I am bound, and will ever be. If you mean by the Ocala platform that I am to pledge myself to any one faction in opposition to the democratic party, I will not accept the nomination if you give it time. If you mean by the Ocala platform that I am bound by the democratic convention I am with you heart and soul even though the Ocala platform is incorporated in the principles you promutgate. A BIG RALLY

Is What the Young Men's Christian Ass

ciation Will Have on Monday Night. The Young Men's Christian Association is going to have a fine rally on Monday night.

Several days ago the devotional committee, of which Mr. D. Luther is chairman, was appointed to make all necessary arrangements for the success of the affair. The members have gotten to work and selected several topics, which will be discussed by a number of young men first, and the older members afterwards. Then there will be a musical programme, in which the association's well-known quartet will be the main participants.

The occasion will be given for the purpose of stirring up still more interest than exists at present in the work being accomplished, and to give an impetus to it, and to discuss plans for the future work of the association.

Every member is requested to be present, and all young men are especially invited to attend the rally. A pleasant time is assured, and judging from the committee's active work, the evening will see a splendid success.

Mr. W. M. York has been appointed to conduct the programme. The Young Men's Christian Association

AN ANNUAL MEETING

ed to the Memory of Members Who Have Passed Away.

The Northern Society held an annual memorial meeting at their rooms last evening. A very large number of ladies and gentlemen were present.

Secretary A. B. Carrier read the following resolutions. In moving their adoption Mr. W. M. Everett paid a glowing tribute to Mr. J. C. Kimball as a faithful officer of the society and to all as grue, Christian gentlemen: Whereas, During the past year four of our charter members, Mr. J. S. Ingraham, Mr. F. E. Clarkson, Mr. JE. H. Stearns and Mr. J. C. Kimball aw been called from our society to the greater one above. Mr. Ingraham was known to but few of our members, ownig to the fact of his being silvanced in years and an invalid, but he was a rentisman who possessed traits of character of the highest order and was esteemed and beloved by all who knew him.

Mr. Clarkson was one of our youngest members, but a valuable one. He came to Atlants entrusted with large and responsible interests, and at once took his place in the iront rank as a progressive tuniess man. His death was sudden and a great shock to all. He was a member of our executive committee and one of our best workers.

Mr. Stearns was a young man, just entering apon an nonorable and useful career, with the brightest prospects before him; a recent addition to our "morthern colony." but as well and favorably known as any young man in our city; as a triend and neighbor new ever more highly esteemed than he in all the walks of lite.

Mr. Kimball was one of the first to settle in the south after the war, and at once took a prominent part in all good works pertaining to best citizen-hip. He was one of the originators of our society.

Resolved, That our sympathy be extended to the families of our decessed members, and that these resolutions be recorded upon the record book of our society, and copies sent to the proper representatives of their several families.

A musical programme was then rendered. The selections were very much appreciated, and were superbly given. The programme was:

Intense and increased interest all over the country over King Solomon and exposition.

A runor was circulated all around the city A rumor was circulated all around the city yesterday that the stage for the production of King Solomon would not be completed in time. The foreman of the work was seen by a reporter yesterday, and said that the officers of the exposition were unnecessarily frightened. "It is true this work should be more advanced than it is, but we have been delayed by somebody's fault, I cannot say who, by not getting the lumber, but be that as it may we have made a contract to have this stage finished by the 10th of October, and by the 10th of October we will have it. "It does not make any difference how many will have to put on the work, we hands we will have to put on the work, we will have it. No matter how much hustle it will take, or how much we will have to lose on the job, we will have it in good shape."

A Big Check. It would not be a big check to the usual business, but the exposition sent a large check business, but the exposition sent a large check to Bolossy Kiralfy yesterday, and he has commenced taking down the scenery and packing the costumes and preparing to transfer the great show from New York to Atlants. This is the greatest jump ever made by any show in this country carrying so large an amount of scenery and people. At the regular railroad rates this jump will cost in the neighborhood of ten thousand dollars. This bold move on the part of the exposition company in bringing such an attraction to Atlants, though apparently bold and hazardous will be the means of attracting hundreds of thousands of people to the city. Our neighbors are dumbfounded at the tremendous aggregation and the lavish display the Piedmont is giving to the public and the presentation of this tremendous aggregation of attractions.

THE ATLANTA ARTILLERY.

Lieutenant Satterlee Inspects the Company Last Night.

Lieutenant Satterlee, of the United States army and assistant adjutant and inspecto general of Georgia, inspected the Atlanta Artillery last night.

The inspection consisted of drill of all kinds with the cannon and saber, and the going through of all orders in the manual. Questions of all kinds were put to the officers and men, and an idea was secured of their knowledge of the paraphernalia and the work. The guns and accoutrements were closely examined, and everything connected with the company and the members' knowledge was

ghly ventilated. A full attendance of the company was pres-ent, and a splendid showing was made. Lieu-tenant Satterlee stated as much, and highly complimented the men and their work.

AT THE THEATER.

George Wilson ushered in the minstrel seas before an immense audience last evening and the universal verdict seemed to be that his show is the best he has ever had. He comes as the forerunner of a host of followers, for the minstrel managers have at last turned their eyes upon the managers have at last turned their eyes upon the territory they were once wont to leave to Wilson alone, and all the "burnt cork" artists of the country will be seen here this year. If the newspaper notices in other parts of the country are to be depended upon, it is safe to predict right here that none of the others will prove better than Wilson's show has proved itself to be, and certainly no one performer in the country is better than Wilson himself. It is doubtful if any deserve to be classed as his equal.

Mrs. Hammond, it is asserted by the fficers, has made herself very obnoxious to the residents of the neighborhood. For several weeks complaints have been coming to the authorities that Mrs. Hammond was not a proper person to live in a respectable comnunity, and that her house was the scene of

Captain Couch returned to police head-quarters and sent two other officers to make the arrest. They, too, were refused admit-tance, and had to return without the woman, Last night the officers again applied for ad-mittance to the Hammond household. No ob-

The arrest was made, and the woman was escorted to the station house about 10 o'clock. She denied every one of the various charges made against her, and disclaimed all knowledge of the trouble complained of.

made by the police committee on these petitions. The majority report recommended that they be granted; the minority report advising their rejection.

Messrs. Hutchinson, Woodward, Kinyon, Tye, McBride, Sawtell, Hulsey, Broyles, Lambert and King voted to grant the license.

Messrs. Reinhardt, Shropshire, Rice, Hendrix, Murphy, Turner and Holbrook voted against granting the licenses.

Thus they were granted by a vote of 10 to 7.

When the message of Mayor Hemphill was before the general council yesterday afternoon. Alderman Woodward essayed to make another test, and moved that the licenses be granted in spite of the mayor's veto.

The city attorney's decision that the matter was not properly before the body, made it necessary to defer it till the next regular meeting.

A TALKING SESSION.

The City Conncil's Adjourned Meeting Yesterday Afternoon.

FORSYTH STREET MATTER SETTLED.

The Election Managers Chosen - Mayor Hemphill's Veto Goes Over to the Next Meeting.

The called meeting of the general council yesterday afternoon was wholly devoid of sensations. All the members, save Councilman Kinyon, were present. The meeting had been called for the purpose of disposing of such unfinished business as could not be d last Monday, and of deciding who should get the contract for the work on the Forsyth street bridge.

Managers of election for all the wards were

Mayor Hemphill's messages approving the action of the council in granting three liquor licenses and vetoing the ten beer licenses granted at the last meeting, were received. The message approving the liquor licenses was received as information and placed on the minutes. The message containing the veto was sent over to the next regular meeting.

Several trivial matters elicited a good deal of discussion, and consumed a good deal of time and came to naught.

The Forsyth Street Bridge. Councilman Turner said he believed that the meeting was for the purpose of taking up unfinished business and the Forsyth street He expressed a wish that the latter would be given precedence of all other matters, cause a representative of the Phoenix Bride Company was present and would be to leave Atlanta at 4 o'clock. "The gentleman wholly misunderstands the purport of my resolution," remarked Alderman Reinhardt. It is aimed at a class of noisy fakirs and drummers for trade who take pos ession of the sidewalks and streets and me actual nuisances.'

"Does it apply to the salvation army?"
asked one of the members, laughingly.
"It does not," answered Mr. Reinhardt.
"I am opposed to it," Mr. King said. "I do not see the use of such a law. I don't think Atlanta ought to become too straight-laced in

Alderman Rice said that he observed that the mayor was present, and he thought the council ought to go into an election of managers of election. This should have been ong ago, he said.

Mr. Hendrix moved that the election should take place one ward at a time, and this sugestion was agreed to.

A message was received from Mayor Hemphill vetoing the ten beer licenses, which were granted by the council last Monday.

The following are the licenses referred to:

This is the second time Mayor Hemphill has retoed these same licenses.

In his message the mayor stated that the same reasons which caused him to veto these licenses in the first instance influenced him to

weto them again.

Mr. Hendrix moved that the mayor's message be spread on the minutes.

Before this motion was put, Mr. Woodward moved that the veto be not sustained.

Mr. Middlebrooks—I am undecided whether

or not we can act on this veto at this meet-ing, since this is an adjourned and not a regu-

Mr. McBride said: "I really think the Mr. McBride said: "I really think the matter is not properly before the council, for this is a continuation of the last regular meeting. I shall, therefore, move to lay the message on the table till the next meeting. Of course, I know how I shall vote on the question when it comes before us, and I am not disposed to shirk the responsibility of my vote, but I deplore that the issue has been sprung at this meeting. The State of Georgia Will Take a Hand in the Depot Muddle.

THE INJUNCTION CASE SET FOR TODAY.

Depot-The Boycotted Railroad, News in General.

The state of Georgia will take a hand in the union depot matter today.

And its interference will give an entirely

different aspect to the case.

The injunction suit has been postponed until

oday, and this morning it will be called be fore Judge Marshall J. Clarke.

When it is sounded, Messrs. Glenn and will announce ready for the Western

and Atlantic. Assistant Attorney General William A. Little will be present and will present a bill of injunctions, for the state against the East

The bill will cite that the property which the depot building stands, and the property where the East Tennessee now put off and take on their passengers, is the property of the state of Georgia, and has been leased to the Nashville, Chattanooga and St. Louis railway. The said Nashville, Chattanooga and St Louis railway desired to be put in poss of said property, and the state prays that the see road be enjoined from the East Tennes

further use of this property. Whether Messrs. Dorsey, Brewster & Howell, the East Tennessee road's attorneys, will ask for further postponement of the case is not known.

Colonel Dorsey said vesterday that he was awaiting advices from New York. President J. W. Thomas, of the Nashville Chattanooga and St. Louis road, was in Atlanta yesterday, on business pertaining to the

depot settlement. He held a long conference with his attorneys and exchanged views with them about the est way to settle the depot muddle.

He also called on Assistant Attorney Gen

eral Little, at the capitol, and asked that the essees of the Western and Atlantic be put in ossession of the depot property.

As an outcome of that interview, Judge Little vesterday afternoon drew up the bill which

will be presented to Judge Clarke today when the injunction case is called. If the case goes to trial it will be a test can and on the final result of it the right of all the

other roads to enter the depot depends. If it is decided that the East Tennessee is intruding on the property leased by the state to the Nashville, Chattanooga and St. Louis, then President Thomas will demand the othe roads to pay up or get out of the depot. It is expected, however, by both sides, that

the case will again be postponed today and a settlement will beimade next week. President Thomas was seen by a Constitu

TION reporter while he was in the city. "Mr. Calhoun was expected to be back to day," said he, "but he has not come. I am informed that he will be back Monday, and after his return I will come to Atlanta and see Mr Calhoun, and the matter, I think, will be set-

"Will the injunction case be tried tomor-

"I cannot say as to that. Our side is ready for trial, but the East Tennessee may wish a further postponement. THE CONSTITUTION was correct this morning in saying that I would do nothing until after L had consulted Mr. Thomas stated further that the Nash

ville, Chattanooga and St. Louis had offered o settle the matter for \$25,000, to be paid an nually by the other roads, instead of \$28,000. following special was received from The following special was received from New York last night in regard to the matter: New York, September 25.—The question of the trains of the East Tennessee road running into the union depot at Atlanta will not be settled until some time next week. Mr. Pat (Calboun leaves for Atlanta tonight, and will have a conference with President Thomas there one day next week. At that conference they will decide the depot question. If the terms can be agreed upon, it is probable the East Tennessee road will get into the depot. Mr. Calboun said to your correspondent today that the matter had been left to President Thomas and himself to settle.

President Inman and Mr. Calboun both say

President Inman and Mr. Calhoun both say there is no foundation for the rumor that Sol Haas, traffic manager of the Richmond Terminal, was to be made vice president of the company. They had not heard the rumor until today, and they cannot imagine how it originated.

The Georgia, Carolina and Northern Depot. The Georgia, Carolina and Northern Depot.

The Georgia, Carolina and Northern will not ask to be let into the union depot.

If rumor is correct the enterprising gentlemen at the helm of that new line have already fixed upon a site for a depot of their own.

Several years ago the different railroads contering here decided to build a belt line completely circling the city and touching the different roads at points about a mile or so from the city.

A right of way was purchased for this purpose and the line was built from the Western and Atlantic to the Richmond and Danville and then for some reason the project was abandoned.

abandoned.

The right of way from the Richmond and Danville extending around the eastern and southern portion of the city is now owned by the Atlanta Real Estate Company.

Rumor has it that the Georgia, Carolina and Northern has been looking at this property with a view to purchasing it, by which to enter the city.

enter the city.

It has been given out all along that the Georgia, Carolina and Northern would come over the Georgia road from Kirkwood into the

over the Georgia road from Kirkwood into the union depot.

It is learned that it will only come over the Georgia road to a point just west of Oakland cemetery, where the old right of way purchased for the belt line begins, thence over a portion of that up to King street, near the Ballard transfer stables, where their depot will be built.

The property for the depot building has already been purchased.

As the building of the road is almost completed, it will not be long before the depot will be built.

The Macon and Atlantic.

One million dollars.

That's what's wanted to complete the Macon and Atlantic rallway, and day by day the prospects are getting gloomier for the raising of that amount.

It is said that in addition to not having any money to complete the road with, that the road is badly in debt.

Messrs. Strong & McKee, the contractors who have been at work on the road, have a claim on the road for \$35,000. This and much more must be paid before work can commence.

The only lope for the road to be built by the present company is in Mr. Sparks. It is believed that he can raise sufficient money in New York to start the work. If this is not done the road will have to be sold out and built by other parties.

The club will meet in Atlanta in No-vember.

An All-Day Schedule.

Augusta, Ga., September 25.—[Special.]—
The Central railroad announces a change in
its schedule, to go into effect Monday, which
will meet with objection in Augusta and Savannah, and with opposition all along the
line of road. By the new schedule day passengers will, for Savannah from Augusta and
from Savannah to Augusta, lay over at Millen three hours and be out on the road all day.
It makes Millen an all-day resort. The train
will leave here for Savannah and Macon at 9
o'clock a. m. and arrive at Savannah 6 o'clock
p. m. The train from Savannah will leave
there at 9 o'clock a. m. and arrive here 5:40
o'clock p. m. That is a nine-hour schedule
between Augusta and Savannah.

The G. S. & F. Boycott Matter. ers pertaining to railroads in general and Georgia Southern and Florida boycott, said yes-

Georgia Failroads in particular, in talking of the Georgia Southern and Florida boycott, said yesterday:

"The Georgia Southern and Florida railroad is one that reached by the Louisville and Nashville, East Tennessee, and other Florida points which are reached by the Louisville and Nashville, East Tennessee, and other railroads likewise. These roads all have lines reaching wes beyond Macon, where the Georgia Southern and Florida commences. The rates to Florida have been heretolore agreed on by the different roads and have been lowered from time to time as circumstances permitted. Recently, the Georgia Southern and Florida railroad has determined to make a cut on the Florida rates, and to that end have established what they call the 'Zone' system. This system is as follows: If a man travels fifty miles or under, they charge him full 3 cents per mile. If from 50 to 100 miles, 2% cents per mile; if from 150 to 200 miles, 2% cents per mile; if from 150 to 200 miles, 2% cents per mile; if from 200 to 300 miles, embrace the Florida points above alluded to, and to Florida points above alluded to, and to Florida points they have figured the rate per mile down to such a low point that the other roads cannot live under it. In this way the Georgia Southern and Florida can and will do them, if permitted to carry on this rate war, a great hurt. Of course this low rate don't help the local men who are only going to travel 30 to 100 miles or even further locally, for on these distances the cut is so small it does him no good, being nothing en fifty miles and only one-quarter of a cent up to 100 miles. It also, on local business, violates the law, because-take a man going fifty miles, he has to pay \$1.50, while a man going fifty miles, he has to pay \$1.50, while a man going fifty miles, he has to pay \$1.50, while a man going the reductions in locals made by the Georgia Southern and Florida. What they object to is that under the guise of this 'Zone' system they have cut the Florida rate paid by the through travel from the north

GOOD MORNING, BUD

How do you do this Morning?"

YOU'RE WELCOME TO THE STORE!

Reliable Work!

Today begins in earnest the Autum's and Winter's business in our Merchant Tailoring. We are going to do more of it than ever before. We're going to do it better. Most of the Woolens in the piece can now be seen. Many of them have come to us right off the looms, in fact, were made especially for us in Europe, and personally selected on the spot.

Next, we have added new brains and experience. Maybe we thought we knew it all. We didn't. We're progressing, however.

Haven't said anything about prices. Come in and look it all over. You'll be pleased with the goods, the service, and wonder how we can afford to do it, in some instances, for so little.

Mr. Huff replied that the money taken from the fund in this way would be replaced, and robably more than replaced, by the increase in the liquor tax.

Mr. Huff's object, as chairman of the finance

Boifeuillet's Bill. The "boycott bill" by Boifeuillet, of Bibb, as introduced yesterday. The bill provides that it shall be unlawful for any railro pany having an office or agency within the state of Georgia to refuse to put on sale or to ase to sell any ticket of any other road with which the same may be directly or indirectly onnected, at the price or rate fixed by the allroad commission of this state for passage over lines of such connecting roads, less such amount as may be directed to be deducted consuch rate by any one or more of such connecting lines; and it shall be unlawful, after the sale of such ticket, to refuse to issue check or checks for baggage over such con-becting lines and upon such tickets to the exent that the baggage may be allowed to be checked under the ordinary rules and regula-

CAPITOL GOSSIP.

The capitol elevator needs attention. It should either be run properly or not at all. As it is now it seems to be running only when the old negro who has charge of it has nothing else to do. When he goes to dinner it is stopped, and when he gets tired or has some scrubbing to do it is likewise closed. There should be another man to relieve this one, and the elevator should be kept running all the time or shut down entirely.

There are other things about the capitol that eed attention, too. It should be kept clean. The walls are dirty, dust is everywhere, and the marble floors are in a filthy condition.

G. G. Griffin, the Railway Clerk Masher, Comes to Grief.

One more mashed masher has been added to

This time Uncle Sam has performed the eremony and one of his officials is suffering the consequences.

It will be remembered that early this month young lady, of a refined South Carolina family, was on her way home from Alabama. She left Birmingham on the evening of the mail clerk. Goodman G. Griffin left the Magic City, both coming toward Atlanta.

The next day the girl complained to Mr. Porter, at the union depot here, and afterwards to a policeman, of the actions of Griffin. She stated that he had been following her about,

and she could not get rid of him.

In other words mashing was his game, and he had reckoned decidedly without his host. Griffin was promptly arrested. At police headquarters he denied all guilt and asserted that he was merely on his way to the Thousand islands to attend a railway mail clerks' convention.

A sum of \$50 was demanded as a surety for his appearance at Recorder Calhoun's court the next day. The amount was immediately

But the gay and festive delegate never showed up again. The money was forfeited, add since then the young lady's brothers have been taking the matter in hand. There are three of them, and from indications it would go hard with Griffin should they ever meet,

Uncle Sam, toe, took the affair up. Reports of the affair reached Washington, and the case of the clerk of the Birmingham and Greenville division was given careful and seious consideration.

Yesterday morning notice was received in the fourth division that Griffin had been dismissed from the service.

The exact wording was, "removed for conduct unbecoming a gentleman."

Griffin is a young man with many friends, and he has borne a good reputation. In Atlanta he was well acquainted, and the unpleasant termination of the affair will be heard with surprise.

In the meantime the Birmingham and Greenville division will need to have a new railway mail clerk appointed.

Permission Granted by the County Commissioners—The Route by Nelson Bridge, Tattnal and Hunter.

Another extension.

The county commissioners have granted permission and the Broad street electric line will be extended to Westview cemetery.

A large force of hands is already at work on Broad street, and the line is expected to be built and electrically equipped to Toland's store Westview, by the first of January.

Mr. Joel Hurt said last night that the line would follow the present route of the horse.

would follow the present route of the horse cars over Nelson street bridge, and from there would go by either Nelson street or Mitchell street to Tattnall, and on Tattnall to West Mitchell street, thence over the hill by the Atlanta university to Toland's store. The total distance is something over three miles, and the line will develop a fine territory, as well as a very large one.

When this West Hunter street line reacher

Toland's store at Westview it will be only about s mile from the terminus of the West End electric line at Holderness street. Mr. Hurt was asked whether this gap would be filled and the connection made so as to go out by either route and return by the other.

"Not now," said he. "We may do so later,

t there is no necessity for it at present."

A COTTON COMPRESS

That Is Cheap and Does the Work-Made at the Technological School. Mr. C. G. Wilson, of Milledgeville, is the inventor of a cotton compress that is cheap and does the work with little power.

and does the work with little power.

The invention was patented some time ago, and the first machine has just been finished.

Mr. George D. Crawford graduated at the Technological school last summer, and, becoming impressed with the invention, bought an interest in it.

During the summer he, with Professor J. S.

Geon, Superintendent G. E. Cassidy and Mr.

J. L. Moore, has been at work, and a few days after the first meeting summer was turned out.

T. L. Moore, has been at work, and a few days afface the first machine was turned out.

Yesterday a bale of cotton was borrowed and a test made. Everything worked perfectly and the bale was easily compressed to fourteen inches, with six-horse power.

The press is cheap and the work is done by means of a band from an engine that turns the wheels, throws up the levers and compresses the cotton. An immense pressure is gotten, and with a small machine and little cost.

The test was perfectly satisfactory, and other presses will be turned out at once. One will be on exhibition at the Piedmont exposi-

The invention is such that every little town and village can have one, compress the cotton in the vicinity, and save freight by so doing. It's a valuable invention, and will prove a great saving for the smaller towns in the south.

THE NEW YORK MARKET.

The Day on the Floor of the New York Stock Exchange.

NEW YORK, September 26.—The stock market today was not quite so active as that of yesterday, but it was still an unusually active market, while displaying a temper in marked contrast to that of its predecessor. The whole list, with one exception, was decidedly strong, and the operations of the day showed that the desperate attempt to break the market yesterday was a complete failure. It was also, demonstrated that the attempt resulted only in a large increase in outstanding short interest, the extent of which in some stocks may be judged from the fact that notwithstanding that money was in active demand at 6 per cent throughout most of the day, the bears were 'compelled to pay 1-32 for the use of Union Pacific stock in order to make their deliveries. The scare among holders was exceedingly short lived, and after the opening this morning there was an excellent demand from all portions of the world, London, outside traders and New York houses vieing with the other shorts in bidding for everything on the list. Where everything was so strong it is hard to pick out special stocks, but Union Pacific, Missouri Pacific and Canada Southern fairly led, followed by Rock Island, Lake Shore, Wheeling and Lake Erie common and preferred, Burlington, Atchison and Louisville and Nashville. Union Pacific and Missouri Pacific were centers of attraction during the day, and while the transactions in Atchison were larger than those in Missourl Pacific, fluctuations in twere by no means as important. The dealings in Union Pacific, however, footed up to a larger total than those in any stock since the present upward movement began. Villards and Grangers were again a good second in the market, but Vanderbilt showed the most strength, and Canada Southern, Lake Shore and Chesapeake and Ohio shares made most substantial gains on comparatively light transactions. Union Pacific, after a most irregular and feverish opening, was again attacked, and adrop of 1½ per cen souri Pacine was strong from the outset, and steadily mounted until it had touched 69¼, a gain of 4¼ per cent from its low figure of yesterday. Union Pacific, however, soon joined the procession and rose 4½ per cent, to 43½. The remainder of the list made progress, and before the advance culminated yesterday's losses were about recovered. There were realizations in the afternoon, but the best prices were well held, notwithstanding that the two leaders reacted materially. All excitement died away toward the end of the session, and the business done became comparatively small, but the market finally closed active and strong, at or near the highest prices of the day. Among active stocks, Union Pacific is up 2¾, Missouri Pacific and Canada Southern 2¾ each, Lackawanna 2½, North American 2, Atchison 1¾, and Reading 1½, the rest of the list generally showing gains of from 1 to 1½ per cent. O. Pacific 1st 84 *Ex-dividend. Cahn & Co.'s Stock Letter.

Received over Lamson Bros. & Co.'s Private Wire by
Messrs. Youngblood & Hans.

NEW YORK, September 25 .- The London market was a big factor in today's speculation, and they were heavy sellers of Union Pacific at the opening. The selling orders were no doubt cabled from this side, so as to have a double effect on the whole market. Buy-ing of this stock was excellent, and the funding scheme, ing of this stock was excellent, and the funding scheme, we are told, is settled. Mr. Morgan is to be heartly congratulated, and Mr. Gould has to take a back seat. The weakness in the general market was only continued during the first hour today. The same tactics were used again in Missouri Pacific, and all made to buy stocks, but it is said very few large stocks came out today. There is no doubt in our minds that the Gould interest is anxious to buy stocks when occasion.

bales. This market responded by an advance of the points at the opening, but under realising sales the improvement commenced to disappear, and finally entirely wiped out under the weight of a heavy port movement and freer interior receipls. The close was steady at about 2 points under last evening. Our Liverpool cables advise that the improvement there is due to continued unfavorable advices regarding the East India crop and buying orders from this side. The cold wave yesterday central in Colorado has moved northeast instead of southeast, and the weather in the south is generally warm and clear today. This assisted the decline here to some extent, although telegrams from the south continue to report damage to the top crop as a result of the hot weather. The weekly statement of the Liverpool stock shows that the supply of cotton available for that market has decreased 15,000 bales for the week, and is now only 84,000 bales larger than last year. The supply of American is now 229,000 bales larger than at this time last year. Late cables from Liverpool advise that the recount of the stock there on the last of October will probably show that the actual stock is 5,000 bales under the estimate. This will make the statistical position, so far as that market is coacerned, nearly the same as last year and leave the bulk of the surplus supply in continental hands. The interior receipts promise to be 74,000 bales, against 88,000 bales last year. This large movement is expected to have a depressing effect on Liverpool tomorrow.

NEWYORK, September 26—The following are the total net receipts of cotton at all United States ports

Lehman Bros.' Cotton Letter.

Received over Lamson Bros. & Co.'s Private Wire by Messrs. Youngblood & Haas. NEW YORK, September 25—Under the influence of stimulating Liverpool advices our market this morn-ing opened firm at an advance of about 10 points, which ing opened firm at an advance of about 10 points, which improvement, however, was quickly lost on account of a desire to realize on the part of longs, in addition to liberal selling orders from New Orleans. The weather in the south continues warm and pleasant, and no doubt induced selling. Advices which we receive lead us to believe that money matters in the south are exceedingly stringent, and the banks either will not or cannot hold cotton. This, with a liberal movement, may prove to be a temporary pressure which might not only hold values in check, but may give us possibly temporarily lower markets, which we believe safe enough to bay.

THE CHICAGO MARKET.

Features of the Speculative Movement in Grain and Provisions.

Grain and Provisions.

CHICAGO, September 25.—Wheat ruled weak and lower today. The news was generally bearish. Cables and domestic markets were lower. December opened at 97%c, against 88%c at the close yesterday, sold down to 97%c, then, on free buying by shorts to take profits, rallied to 97%c, eased off some, advanced again during the last hour on renewed covering by shorts, going up to 88%c, but did not hold the advance, receding in the last few minutes and closing at 97%c. The final weakness was due to the let-up in the short demand and to late cables quoting Berlin lower and Paris and Antwerp unchanged.

late cables quoting Berim lower and Paris and Antwerp unchanged.

Corn was strong and fairly active. The opening saies were at a slight decline compared with yesterday, but the demand was rather sharp. October opened at \$8\isometime{4}\text{3}\text{4}\text{6}\text{4}\text{6}\te STOCKS, BONDS AND LOANS. 9 6314 10 10 15

and southwest, easy cables and large northwestern recelpts, wheat sold down sharply from the start, and
the decline was not checked until the "put" price was
reached. Then buying against "puts" and some general outside buying absorbed all offerings, and the
market became firm and steady, and advanced nearly
I cent per bushel. On this advance, however, Ream and
Pardridge were sellers here, and Hutchinson was reported to be a large seller in New York. New York
also sold freely here, and our market closed a quarter
of a cent above the lowest price of the day.

Corn opened weak, but soon became strong and
ruled so during the session. The demand for shipment
still liberal, and the estimated receipts show a prospective further falling off.

Provisions were very heavy, and closed near the
lowest point of the day.

REPLIES.

Writes a Concluding Letter Concerning Chairman English

THE MATTER IN CONTROVERSY.

Reiterates the Position of the Railro ompany, and Refers to Other Matters Which Captain English Mentioned.

YLANTA, Ga., September 25.—Editor Constitu-i: Mr. English has another lengthy communi-ion in your paper of yesterday, which evi-ces to my mind that he is considerably

robled.

I have given him two opportunities to escape seide charges from me, but he seems anxious them, and while I must confess to a degree of modesty in entering into a newspaper discussion with one so fond of mud-slinging as Compisioner English, yet I deem this matter of sufficient importance to the public to call for a reply whis last communication. Mr. English uses this inguage in his Sunday interview:

Early in the summer President Hurt called on e and stated that disreputable people were in the habit of going out to that park every evening arcriminal purposes. He also stated that the conduct of those people on the care, going to and from the park, was offensive to the good citizens who traveled on that car line, and an injury to his empany, and asked me if I would send an officer there to clear the Inman Park of that class of visions.

Thave never stated to him, at any time, that have people going to and from Inman Park were consive to the good citizens who traveled on that ar line. More than a year ago I addressed to commissioner English the following communication, which shows that the parties complained of were not in Inman Park, but near the center of stants:

tion, which shows that the parties complained or the new tin Imman Park, but near the center of allanta:

ATLANTA, Ga., August 7, 1890.—Captain J. W. Inglish, Chairman Board of Police Commissioners, Atlanta, Ga.—Dear Sir: I am informed by it. Bloodworth that, in answer to our request to have certain nototious women moved away from Edgewood avenue and its immediate vicinity, you stated that these women must live somewhere, and that your department could take no action in the matter unless private parties collected certain fasts and evidence against these women and furnished them to you.

"This brings to my mind that about six or seven rears ago, when requested by us to have women at the same character moved away from Line street, you made a similar reply.

"What you could have done then by the power rested in you costs private individuals many thousand dollars to accomplish.

"Now, I submit, that if it is necessary that private persons must abandon their work and engage in the pursuit of private vigilance committees, what need have we for aspolice department? Is it is mpleasant duty? I hope not.

"The residence of these women on Edgewood senue makes it embarrassing for respectable arties to live in or pass through this section, and very damaging to the properties of citizens. "We beg that you take such steps as appear vithin your power to have them removed. You might have them all notified, in advance of any moscution, that the citizens have determined her shall go.

"We will leave no stone unturned, and some

might have them all notified, in advance of any prosecution, that the citizens have determined hey shall go.

"We will leave no stone unturned, and some-bedy is going to get into trouble. Yours very traly,

JORL HURT, President."

These were the ones that were giving the most mubble and annoyance, and it is due to the kind strices of Solicitor O'Bryan, and special policemen engaged by him, that this locality has long siece been relieved of the objectionable parties complained of.

It was not due to Commissioner English's interestion, nor to the services of his chief, but to sther officers of the law to whom appeal was made, hat this locality has been purified, and for doing which, charges were preferred before the board of police commissioners, against one of these steers. This officer was tried, and Captain Ellis as engaged to defend him, which is a matter of soord, and for what? For doing his duty as an officer in adding Solicitor O'Bryan to purge this basilty.

Commissioner English accuses me of having

resergaged to detend him, which is a matter of seorg, and for what? For doing his duty as an effect in adding Solicitor O'Bryan to purge this keality.

Commissioner English accuses me of having dired special privileges to Officer Whitley, and is in yesterday? paper, charges the same directly. This charge is untirue. I have not been able to see Officer Whitley, and is in the search of the been told that he would have to pay his fared below told that he would have to pay his fared his statement to Mr. Bettis so that! my hand and read in parts, stating to him that comebody in the police department had acted hastly.

Captain English makes the following declaration: "The police department has never been talled upon to send officers out there by any other citizens or for any other purpose." I pronounce this statement also untrue, and if Mr. English demies it, I make him this proposition: He and I will deposit each in the Atlanta National bank \$1,000; let him select a man and I another, and in case of their iailure to agree, we will ask Judge Clarke to appoint a third man, and to these the twidence will be submitted upon which they are to make up a verdict that Captain English is either julity or not guilty. If they say not guilty, I will pay the expenses of the commissioners, and the hance of the money, if any left, will be given to the Grady hospital. If he is guilty of a misrepresentation, his \$1,000, and not mine, is to be appropriated in the above manner.

Mr. English, after quoting my reasons for the necessity of uniforms, says, "I say that was not the motive that moved him to establish his arbitrary rule—it is the nickels he, is after and demands from those officers." I pronounce this absolutely untrue, since I assired Mr. English in person that we were more than willing to carry the policemen free if it could be arranged so that the public could know that they were policemen. When Mr. English quotes my expressions to him, and declares that I am not sincere in them, he goes a step too far in this controversy and makes an issue of veracity which I have endeavered to avoid.

Ide not care to review Mr. English further. His tecord is known in Atlanta and elsewhere. I will give him credit for having done much good in our nidst, where alone I have known him. Yet there is a disposition on his part to cast innuendoes which, to me, evidences a grossness which is re-

lisive.

He speaks of monopolies and the valuable rights tained from the city. Have these rights just on obtained, and have they not existed for any years? Has not the company recently reed to waive its fifty-year exemption from taiton which has heretofore existed on the Attaines, and after all, is not this monopoly lich Mr. English complains of doing much good Atlanta?

At Latonia Fark.

CINCINNATI, September 25.—Flags at Latonia were floated at half-mast today out of respect to the memory of Ben G. Bruce. In the fourth race Frederick William pulled up a little past the half pole. His left strile had dropped. Only two strong favorites won. The odds on the other winners, however, were close, ranging from three to six to one.

TO BE LED OFF BY OFFICERS.

Two Men in Jail to Await the Charge o Intimidating United States

Witnesses. Deputy Marshals Carter and Campbell esterday brought to the county jail a moniner by the name of James H. Graham.

Thursday they found his distillery in Africa district, in Madison county. Stretched out on the floor was Graham, apparently lifeless. The officers could not rouse him, and, but for the beating of his heart, the man would have been given up for dead.

After fully an hour Graham began to show signs of life and later on aroused himself and, rant of the character of his companions asked them to give him some more liquor and to draw it from his still. Instead of doing that, a twenty-five-gallon copper still, cap and worm, fourteen fermenting tubs, 225 gallons of beer and thirty-five gallons of low wine were seized and destroyed and Graham brought before Commissioner Gaston at Gainesville, who committed him to Fulton county jail in default of \$300 bond.

From the Same Section.
In another portion of this "African district" Deputy Marshal Ayers caught James Queen and arrested him for violation of the revenue laws. Commissioner Gaston, at Gainesville, committed him to Fulton county jail in default of \$100 bond. Queen was brough

to Atlanta yesterday.

Opposed to Any Witness.

William Webb, of Cherokee county, was yesterday lodged in Fulton county jail in de-fault of a three-hundred-and-fifty-dollar bond. The charge against him is intimidating a witness. A few days ago he was arrested for illicit distilling. One witness with evidently

amaging testimony was R. P. Casey. Webb declared that he possessed a fine, new linchester, and that he would empty its contents into any man who dared to testify to his having made whisky. James W. Casey, a relative of R. P. Casev, and several others have made affidavit against Webb to this effect, and he will thus have this charge, also,

Depuly Marshal W. F. Standley on Thursday caught Wylie Higdon in a distillery. He was operating near Pierceville, in Fannin county. A sixty-five-gallon copper still, cap and worm, 500 gallons of beer and a singling keg were destroyed, and the now-wily Hig-den carried before Commissioner Boon Craw-

ford and bound over. It Makes the Fourth.

Criminal information was yesterday given against Miles Crane. He is the moonshiner of Dawson county who stabbed Walter Stepp on last Friday for testifying against him in a preliminary trial. This makes the fourth rge against him, as he will have to appear for trial for illicit distilling, disorderly conduct, and for the stabbing.

Advises Them to Hurry.

The contractors who furnished material for the enlarging of the castom house under Mr. Hugh Angler, as superintendent of construction, are now after their money.

It will be remembered that Thomas & Driscoll were first given the contract, and that the work was taken away from them and placed under Mr. Angler, because of the firm's careless and slow building.

The work was completed on August 10th, and now it is about to be paid for at Washington. The contract was originally with Thomas & Driscoll, and they will be given the amount appropriated, unless other claimants appear. In consequence, Mr. H. M. Beutell, Mr. W. R. Jones, Wash & McAlpin and others have gone to Washington to obtain the amounts due them for material. Mr. Beutell advises all to whom the government is indebted to forward their claims immediately.

Have Returned. Have Returned.

Mr. H. M. Robinson, of the Air-Line road, now the president of the Railway Mail Clerks' Association of the United States, and Mr. John F. Blodgett, chief clerk of the local service, returned yesterday from a pleasant trip which they took after the convention at the Thousand Islands. Both met with an blegant reception from their friends here. Mr. Colquitt Carter, clerk of the district urt, will return home today from a summe cation in Murray county.

STREET CAR GOSSIP.

not venture to say as much of all or even a majority of "globe trotters."

Dr. Hopkins meant business in his ramblings and researches. He did not go on a picnic excursion, but to study the best methods of conducting a technological school like the one over which he presides. Of course he saw and heard meny other things and it is of some of these less technical things which cannot be fished out of the average guide book, that we drew him out in a brief conversation.

which he presides. Of course he saw and heard menny other things and it is of some of these less technical things which cannot be fished out of the average guide book, that we drew him out in a brief conversation.

When in England he got admittance—not a very easy matter—to the British house of commons and heard a rattlingidebate on prison reform. Parnell and other celebrities took part in the discussion. Gladstone was absent because of the death of his son. Dr. Hopkins was fortunate in seeing the prince and princess of Wales—nor less so in hearing the beir apparent speak from a platform like a scholar and a statesman. The princess he thought was a vision of beauty and sloquence. The queen was probably at Balmoral or some other summer residence. At any rate, she did not come in the range of his observation.

In Paris he was refused admission into the princelpal technological school, Ecole Polytechnique, although he had the endorsement of the American minister. They are afraid of German spies in Paris, and Dr. Hopkins has the rotundity of a Burgoman. St. Fetersburg, in Russia, was, however, his chief objective point, where he desired particularly to see the technological school. He says that in St. Petersburg the extremes of worldly fortunes are more sharply contrasted than in any other European city he has visited. There is an aggregation of wealth, and side by side with an abject poverty hardly equaled by the lazarone of Naples, or the leprous rabble of Servia.

He saw the czar, the culmination of Panslavism and the head of the vastest stan ding army in Europe. He saw also the exarowitch, who, like his father, seems a well-mannered gentleman. He thisks for all that, however, that the ezar might send a nihilist or a graceless Jew to the Siberian mines on a very slight provocation.

He got a view of the Cossack and had an opportunity of witnessing their drill, which he did not think was up to the high plane of the German soldiery. Dr. Hopkins visited Moscow, the holy city of the Greek church, and was charmed wit

SOCIETY GOSSIP.

AMERICUS, Ga., September 23.—[Special.]—All of society's favorites have returned from their summer jaunts and the coming season promises to be lively in the extreme.

The Americus Club, composed of the talented and gallant young men of the city, gave a delightful german in their handsome new club rooms on Jackson street on Tuesday evening. This club is a prominent factor in social Americus, and their entertainments are always enjoyable.

This club is a prominent factor in social Americus, and their entertainments are always enjoyable.

Tuesday evening's german was a grand success, Professor Kaler's superb string band furnished the music, and it goes without saying all enjoyed the evening's round of pleasure. The following couples were present:

Mr. and Mrs. Arthur Bivins, Mr. and Mrs. Bloom Brown, Mr. and Mrs. W. A. Hawkins; Miss Crowell with Mr. Hightower, Miss Grace Burns with Mr. James Lanier, Miss Belle Shaw with Mr. Brown Burkhalter, Miss Nannie Lou Hawkins with Mr. John Sheffield, Miss Hattle Windsor with Mr. H. J. Mysoner, Miss Jennie Holls with Mr. Walter Crisp, Miss Frances Relie with Mr. Lester Windsor, Miss Sarah Cobb with Mr. E. A. Hawkins, Jr.; Messrs. W. K. Wheatley, A. B. Eldrige, Oliss Dixon, S. H. Hawkins, Jr., Charles Adams.

Wednesday evening the Leiton Whist Club met at the residence of Mrs. Henry Storey. The beautiful parlors of this charuing home presented a most interested group of congenial iadies, and for two hours silence reigned supreme, and scientific whist was indulged in. After which a most dainty luncheon was served in the exquisite dining hall, one of the prettiest in all Americus. Two charming young ladies, Misses Mand Livingston and Jennie Stapleton, did service around the handsome board, and the delicious viands were all the more acceptable, offered by such fair hands. Mrs. Storey is a handsome hostess, and her entertainments are, in the extreme, elegant. An invitation to her lovely suburban home. with its rich and artistic furnishings presided over by socharming a woman, is always accompanied with prospective pleasure. It is, indeed, a pleasure in itself to examine Mrs. Storey's rare and artistic collection of souvenirs in china and silver. Her father, Major W. L. Glessner, is a great traveler, and many of these unique designs were selected by him and presented to his daughter. The home is full of interesting books, lovely bric-a-brac and national curiosaties collected by Major Glessner from all parts of the

Cotton is advancing in price and wheat is higher than it has been for years. All of America's surplus cereals will be eagerly taken by poverty-stricken Europe, hence large importation of gold, which will more than offset the few millions exported. All this means good times and easy money market. Now is the time to invest in farms and well selected acres near a large, growing city like Atlanta.

From our large list we select the following bargains: 31-3 acres, bounded by Ashby, Green Ferry and other streets, only \$3,000.

20% acres between Happville and Manchester, one mile from railway station, well timbered; \$3 per acre.
